Four expert teams have been selected, previously exclusively trading for managed accounts under the Chelton Wealth banner. Until September 2022, the expert teams' net results have been shown net of all fund fees. As from October 2022, fund returns are shown.

RETURN OF THE FUND AFTER ALL FEES (FEB '18 = 100) VS MSCI WORLD

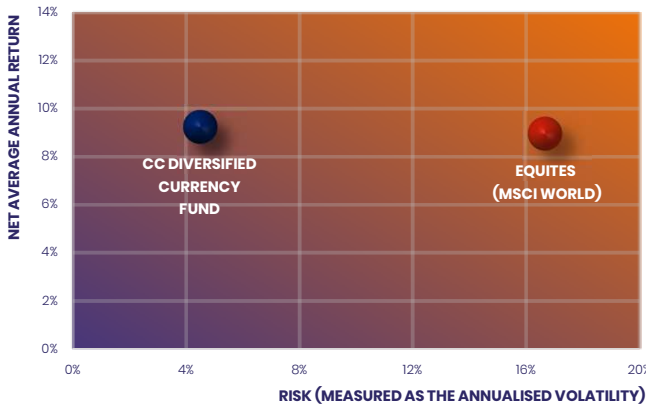

INVESTMENT APPROACH

The Coeus Diversified Currency Fund trades primarily currency pairs of the G10, but also diversifies through limited investments in gold, equity indices and oil.

However, the Fund Manager does not do this directly. To this end, it has partnered up with Chelton Wealth, which has been very successfully offering managed accounts in this area for years with the help of four expert teams. The fund is thus a logical continuation of these managed accounts in the form of a fund.

The variety of styles of the various expert teams ensures maximum diversification and thus a considerable reduction of risk at the portfolio level.

RISK / RETURN FUND VS MSCI WORLD

OBJECTIVE AND UNIVERSE

The Coeus Capital Diversified Currency Fund aims to achieve an attractive growth of value with an acceptable risk by investing primarily in currencies.

- Characteristics of currencies include:
- Highly efficient trading;
 - No correlation with other asset classes;
 - Relatively low volatility;

The absence of any correlation with other asset classes makes the Coeus Capital Diversified Currency Fund an excellent diversification to an existing investment portfolio.
